

EuPD Research

Meet us at the 9th Forum Solarpraxis

November 20-21, 2008 | Berlin

EuPD Research will be present at the 9th Forum Solarpraxis in Berlin at the end of November. The event will bring together delegates from the solar industry as well as representatives from the political arena, the media and the financial world in the capital of the world's biggest PV market. Visit our stand and find out about current developments in the worldwide PV markets. We are looking forward to discussing our latest research topics, such as the PV thin film market study and our comprehensive USA analysis – the first detailed primary analysis available.

We would be delighted to meet you at the event. If you would like to make an appointment to discuss any aspect of our work in more depth, please just fill in the form on the back of this leaflet and fax it back to us or send us an email.

Presentations

Markus A.W. Hoehner, CEO of EuPD Research, will be speaking at the "Politics and Market" (Forum 1) part of the conference. Under the title of "Top European PV Markets – Changes Ahead", he will provide thought-provoking insights into the latest developments on the German, Spanish, Italian and French PV markets. The presentation will be held at 9.20 am on November 21.

Markus Wackerbeck, the head of our Energy & Utilities department will also be speaking on November 21. His topic will be "Thin Film PV – Market, Margins, Main Players" and it will deal with the recent boom in thin film production and whether global demand can be expected to soak up supply. He will be speaking at 2.50 pm during the "Finance" section of the conference (Forum 2).
